

MySQL Practical Output

Table operations: CREATE, DESC, INSERT, SELECT, UPDATE, DELETE

1. CREATE TABLE and DESC

Created table student12 with id (NOT NULL), name (NOT NULL) and address, then checked the structure using DESC.

```
mysql> create table student12(  
    -> id int not null,  
    -> name varchar(10)not null,  
    -> address varchar(20));  
Query OK, 0 rows affected (0.02 sec)
```

```
mysql> desc student12;
```

Field	Type	Null	Key	Default	Extra
id	int	NO		NULL	
name	varchar(10)	NO		NULL	
address	varchar(20)	YES		NULL	

```
3 rows in set (0.01 sec)
```

```
mysql> |
```

2. DESC studenttb and INSERT (with syntax errors)

Checked the structure of studenttb. The first INSERT attempts failed with ERROR 1064 because of quote and semicolon mistakes; the table stayed empty. The corrected INSERT worked (1 row affected).

```
mysql> desc studenttb;
+-----+-----+-----+-----+-----+-----+
| Field | Type | Null | Key | Default | Extra |
+-----+-----+-----+-----+-----+-----+
| studentid | int | YES | | NULL | |
| firstname | varchar(20) | YES | | NULL | |
| address | varchar(20) | YES | | NULL | |
| age | int | YES | | NULL | |
| percantage | int | YES | | NULL | |
| grade | varchar(10) | YES | | NULL | |

3. SELECT * (1 row)

Record of student 203 (yash) displayed.

```
mysql> select * from studenttb;

1 row in set (0.00 sec)
```

4. INSERT another record

First attempt gave ERROR 1064 (query continued on the next line). The corrected INSERT for studentid 204 (bhavna) worked.

```
mysql> insert into studenttb values(204,'bhavna','delhi',19,78,'B1');
> insert into studenttb values(204,'bhavna','delhi',19,78,'B1');
ERROR 1064 (42000): You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'bhavna','delhi',19,78,'B1]' at line 2

204	bhavna	delhi	19	78	B1

```
2 rows in set (0.00 sec)
```

5. UPDATE address

UPDATE syntax errors fixed. Final query: update studenttb set address='delhi' where studentid=203; changed dehli to delhi (Rows matched: 1, Changed: 1).

```
mysql> update studenttb address='delhi' where studentid=203;
